RE: New Jersey Site Remediation Professional Licensing Board
Approval of Continuing Education Credits for
"Optimization and Monitoring for Bioremediation of Chlorinated Compounds"
New Jersey SRPLB CEC Number 2019-068

Dear Sherri Scott:

The New Jersey Site Remediation Professional Licensing Board ("SRPL Board") is pleased to inform you that the application of the Tersus Environmental for approval of Continuing Education Credit (CEC) for the continuing education program entitled "Optimization and Monitoring for Bioremediation of Chlorinated Compounds" was approved by the SRPL Board on September 23, 2019. The continuing education program has been approved for a total of three (3) technical CECs.

Please note that the continuing education program has been approved based on the application submitted June 14, 2019. The continuing education program approval remains valid as long as the content and instructors remain as represented in the application, or any revisions to the application submitted prior to approval. If there is any substantive change in content or a change in one or more instructor, you will need to re-submit the application for SRPL Board approval.

Note that the continuing education program information will be posted in the list of Approved Continuing Education Courses and Conferences maintained on the SRPL Board's website located at www.nj.gov/lrspboard. Please be sure to keep the SRPL Board updated on the dates and locations the continuing education program will be offered so that the posting on the SRPL Board's website remains current.

Also, the SRPL Board requests that you provide a certificate of attendance to each attendee seeking New Jersey Licensed Site Remediation Professional (LSRP)

continuing education credit within 30 days of his or her successful completion of the continuing education program. The certificate of attendance should include the name of the attendee, the continuing education program name, the provider name, the date, the location, the number and type of CECs that the attendee earned, and the New Jersey SRPL Board CEC Number (2019-068). The certificate should be signed by a representative of the provider that can attest to the attendance of the attendee at the continuing education program. In addition, each time the continuing education program is held, please send to the SRPL Board a list of all attendees to whom you have presented certificates of attendance.

Thank you for your contribution to the continuing education of Licensed Site Remediation Professionals in New Jersey. If you have any questions or comments, please do not hesitate to contact the SRPL Board.

Sincerely,

Janine MacGregor
Executive Director

Site Remediation Professional Licensing Board
